"It's like our Second Honeymoon"

We Love this Island there are so many tourist attraction. The best place to visit, the place you cannot miss or your life will be incomplete is JELLYFISH LAKE. It's a lake filled with millions of non-stinging jellyfish that you're even able to swim with. We've experienced it; it is one of the natural wonders of the world. Mrs. Constance Hubbard & Husband stay in R228 for 6 nights. They love the honeymoon Package offer of our hotel, They said it's like they having their second honeymoon in AWP. They are very nice person & love to chat with the hotel staff. They Choose our hotel because of the very impressive & positive reviews they heard about our hotel.
